# Realness – Intimate Garden

Sandrine Deumier

Opening Reception: February 20, 7-9pm

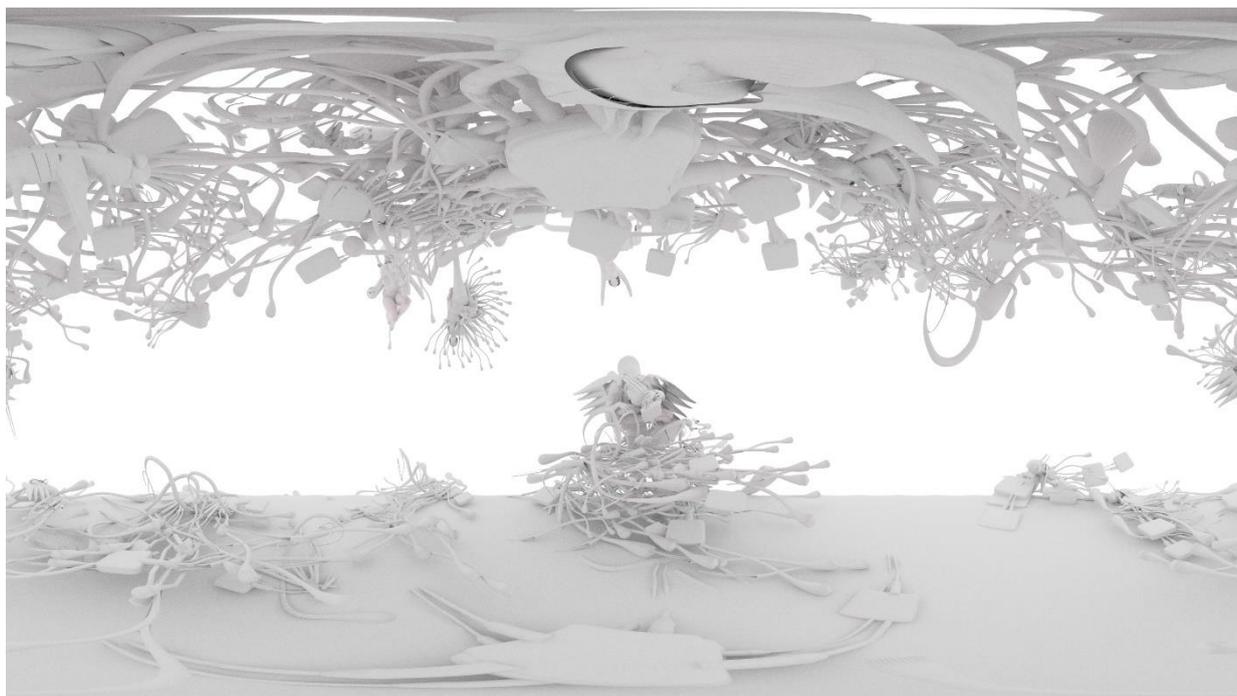

synthesis gallery is pleased to announce its latest exhibition *'Realness - Intimate Garden'* by **Sandrine Deumier**.

Deumier creates virtual environments where amorphous, anonymous, beautifully complex humanoids live in organic symbiosis with their natural environment. The cybernetic garden by Deumier is ever mutant with its creatures adjusting to it naturally and gracefully, creating boundless kinetic energy and a chaotic, dense process of highly intricacy containing an almost hidden scaling natural order.

*'Realness - Intimate Garden'* explores the boundaries within an artificially created nature and a freshly conceived form of humanity as harmony and osmosis between the two are finally reached.

The exhibition is curated by **George Vitale** and opens to the public on February 20th.
